Vol. VI, No. 1

January 1962

DECEMBER UNIFORM PRICE \$4.00

Dairy farmers will receive a uniform price of \$4.00 for December 1961 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.3 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge.

PRODUCER RECEIPTS

December receipts of Grade A milk from producers on a daily basis showed an increase of one percent. The average daily herd production was up 15 pounds over November, but there was a decrease of seven producers from November, which keeps the daily production on the market about the same. Average daily herd production a year ago was 707 pounds per producer, which is 38 pounds less than the present production. The average butterfat test of producer milk has decreased slightly from a year ago by about one half percent.

CLASS I SALES

Daily Class I sales decreased from November by about 4.5 percent. December is not usually one of the top months for sales during the year, but the decline of 4.5 percent is considerably more than last year's comparison between November and December.

BASE REGULATIONS

All producers requesting "new producer status", or having less than 90 days' production received by a handler in the months of September, October, November, and December 1961, will be paid on the following basis for April, May, June, and July 1962:

April	delivery period	79% at "base"; 21% at "excess"
May	delivery period	75% at "base"; 25% at "excess"
June	delivery period	76% at "base"; 24% at "excess"
July	delivery period	81% at "base"; 19% at "excess"

All producers who wish to request a "new producer status" for their earned base, must have their WRITTEN REQUEST in the office of the Federal Milk Market Administrator, P. O. Box 216, South Bend 24, Indiana, by February 15, 1962.

CLASS I PRICE

The Class I price for the January 1962 delivery period will be \$4.17 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.10 per hundredweight to the average condensery pay price (\$3.19) and subtracting the 12 cent supply-demand adjustment. The supply-demand adjustment for the February 1962 delivery period will be a minus 10 cents.
